Step 1 : Make holes at the four corners at the back of the housing as shown in the drawing. Size of the holes should be uniform at 2.0mm.

Step 2 : Insert stainless steel cables into each of the previously prepared four holes and then insert into cable locking device according to the picture above. Please make sure that the cable locking device is tightened properly.

Step 3 : Insert the supply cable into the frame and connect to the prepared connector

Step 4 : Fix lamp tube at the lampholder properly and rotate 90°.

Step 5 : Reattach the louvre to the lamp frame by pressing it towards the stainless steel clip.
